

This Is What You Need to Know

WHAT IS PERSUASIVE TECHNOLOGY?

 BJ Fogg created this term while he was doing his graduate work at Stanford University.

Websites, social media platforms and all other online platforms are becoming more 'persuading' by design 

 'Persuasive technology' is gently nudging the user to do things that they normally wouldn't be doing

Persuasive technology is influencing a user so that they change their attitude and behavior. 

 'Persuasive technology' makes the user get addicted to technology - but is it ethical to do it?
